AMENDMENT

Dear Sir:

Applicant submits this Amendment to the Office Action made Final and mailed on the date of October 28, 2005. This Amendment is filed in reply to a phone call held with the Examiner and Supervising Examiner for which the Applicant is thankful and at which time the Examiner and Supervising Examiner recommended the Applicant submit proposed amendments to the claims in order to move the above-identified Application forward in the best interest of the Applicant and the public. Further to such a recommendation, Applicant submitted proposed amendments to the claims on January 23, 2006, which were stated by the Examiner in a phone call on January 30, 2006, to be in allowable form. The Examiner then recommended that such amendments to the claims be submitted in a form responsive to the final Office Action in order to proceed therefrom. To this end, Applicant submits this Amendment.

In view of the preceding Remarks and the additional Remarks/Arguments provided herein, Applicant respectfully requests entry of this Amendment believed to bring prosecution to a speedy conclusion and to deal justly by Applicant and the public. Applicant further believes the Amendment provided herewith defines their invention in claims that will give them patent protection to which they are justly entitled. This Amendment does not require an additional search on the part of the Examiner. Accordingly, Applicant respectfully requests reconsideration and withdrawal of the outstanding rejections and request allowance of claims pending in the Application for patent.

In response to the final Office Action, please amend the above-identified Application as follows:

Amendments to the Claims as reflected in the listing of claims beginning on page three (3) of this paper; and

Remarks/Arguments beginning on page nine (9) of this paper.
